About the Enterprise Network

The Enterprise Network member base is by invitation only. It is comprised solely of private Real Estate firms, meaning no national brands are accepted. We only work with one company per market place. This exclusivity allows for open collaboration and sharing of information within The Network, free from any conflict of interest. The goal for our members under the Enterprise Network umbrella is that they gather to address the technology demands that are emerging in today's changing Real Estate markets, and together make the best decisions concerning implementation of systems and solutions.
