## Active Website Launches Enterprise Portal

### FOR IMMEDIATE RELEASE

Denver, CO – Active Website launches The Enterprise Portal, a private online forum for network members.

The purpose of the portal is to create an open forum for sharing ideas, information, data, and content as well as an online opportunity for collaboration. Members can share insights and comments on existing topics as well as post new subject matter. Everyone in the network is instantly notified when new posts are created. Included on the Portal is a centralized area with complete contact information for all Enterprise Network Members.

“The Portal really facilitates an open collaborative environment dealing with topics ranging from technology to relocation, from lead generation to best practices, and generally will help to keep our members connected and informed. It is fast becoming an integral part of the Enterprise network,” said John Gadeken, Enterprise Network Coordinator.

### About the Enterprise Network

The Enterprise Network member base is by invitation only. It is comprised solely of private Real Estate firms, meaning no national brands are accepted. We only work with one company per market place. This exclusivity allows for open collaboration and sharing of information within The Network, free from any conflict of interest. The goal for our members under the Enterprise Network umbrella is that they gather to address the technology demands that are emerging in today’s changing Real Estate markets, and together make the best decisions concerning implementation of systems and solutions.

### About Active Website

Active Website is a Colorado-based company specializing in the design and development of Real Estate Communication and Technologies. Founded in 2004, the company has rapidly become an industry leader with major clients including The Group, Inc., The Kentwood Company, Windermere Tri-Cities, Wright Kingdom, and Reinhart Realtors Real Estate Companies as well as several new members soon to be announced.

The Active Website site ([www.activewebsite.com](http://www.activewebsite.com)) provides detailed information about each of its Real Estate technology offerings, as well as an extensive portfolio and client testimonials.
