## **Newest Enterprise Network Member, The Danberry Company, is Live on Enterprise Platform**

FOR IMMEDIATE RELEASE

Denver, CO – The newest member of the Enterprise Network, The Danberry Company, is now live on the Active Website Enterprise Platform. The Ohio-based brokerage has over 250 agents serving the Northwest Ohio and Southeast Michigan area. Founded nearly 50 years ago, The Danberry Company is known for its exceptional customer service, creative marketing, community involvement and market dominance. The Enterprise Platform increases Danberry's digital footprint, allowing them to reach more online customers and serve their business needs more effectively. View The Danberry Company's new website online at [www.danberry.com](http://www.danberry.com).

### **Features and benefits of the Danberry website include:**

1. Advanced Mapping Technology through Google™ Maps
2. Social Networking Integration
3. Advanced Search Engine Optimization
4. Individual Property Websites (IPWs)
5. Individual Realtor & Team Websites (Rebrands)
6. Customer and Agent reporting tools
7. Mobile Technology Interfaces

The Danberry Company is known for strong social and business networking and dedication to the local community. Accordingly, Danberry has chosen to incorporate these virtues into their website by employing a seamless integration of social network profiles which allow their website users to further connect with the brokerage and their associates online via sites such as Facebook® and YouTube™.

"We are now tying the very best of available technology into our marketing strategy, offering extraordinary services to both our Buyers and Sellers. The launch of the company's new website, in tandem with the expertise and invaluable professional experience of our Realtors®, will ensure that The Danberry Company will remain the first choice in the Toledo Metropolitan area for finding a dream home with ease," says Danberry's President, Dick Baker about the new website.

To enhance interactivity and provide more relevant property search results, the new Danberry website also utilizes an upgraded map search system powered by Google Maps. Advanced mapping features include the popular Point of Interest (POI) search tool which plots businesses, landmarks, government services, restaurants, shopping, recreation areas and more, near properties. The map search also provides the ability to find properties using the Polygon Tool. The Polygon Tool allows users to define the precise boundaries of their area of interest and allows users to search in several distinct areas by defining multiple polygons on the same map.

“Danberry continues to lead the market in technology—we now pull even further away from the pack with Mobile Websites, Social Networking Integration and Individual Property Websites,” said Danberry’s Director of Technology, Valerie Suelzer.

**About the Enterprise Network**

The Enterprise Network member base is by invitation only. Comprised solely of private real estate firms, the Enterprise Network does not accept national brands and only works with one company per marketplace. This exclusivity allows for open collaboration and sharing of information within the Network, free from any conflict of interest. The goal for members under the Enterprise Network umbrella is to gather and address the technology demands that are emerging in today’s changing real estate market. Together, Enterprise Network members can make the best decisions concerning implementation of systems and solutions, ultimately leveraging everyone to higher levels of business.
